

## Introduction of Chemistry Short Question

### Fill in the Blanks

1. Observation and Experimentation are important aspects of the \_\_\_\_\_ method.
2. The study of substances is called \_\_\_\_\_.
3. The substances which take part in the Chemical Reaction are called \_\_\_\_\_.
4. After reaction the new product which is formed is called \_\_\_\_\_.
5. Reactant and Product together are called \_\_\_\_\_.
6. In ancient time a form of Chemistry called \_\_\_\_\_ was practiced in many parts of the world.
7. Insecticides are Used to kill \_\_\_\_\_.
8. To kill Fungi \_\_\_\_\_ pesticides are used.
9. To kill Weeds \_\_\_\_\_ pesticides are used.
10. \_\_\_\_\_ is a natural Food preservative.
11. The example of Artificial Food Preservative is \_\_\_\_\_.
12. \_\_\_\_\_ are added to fatty food such as butter, cheese and oil to prevent them from becoming state.
13. \_\_\_\_\_ are added to sauces, jams and juices to make them attractive.
14. To maintain better food taste better or give it a particular taste \_\_\_\_\_ are used in food.
15. To make summer clothes \_\_\_\_\_ fibers are used.
16. To make soft and smooth cloths like bedspreads, Jackets, Carpet \_\_\_\_\_ type of materials are used.
17. To make winter garments \_\_\_\_\_ fibers are used.
18. \_\_\_\_\_ type of fibers absorb moisture.
19. To make Raincoat \_\_\_\_\_ type of materials is used.
20. \_\_\_\_\_ are used to add color to cloth.
21. To make expensive cloth \_\_\_\_\_ fibers are used.
22. \_\_\_\_\_ are used to rescue Stomach Acidity.
23. Morphine are used for \_\_\_\_\_.
24. \_\_\_\_\_ are used to reduce fevers and relieve pain.
25. Products obtained from petrols are called \_\_\_\_\_.
26. \_\_\_\_\_ is used to make Shampoos.
27. \_\_\_\_\_ are used to make explosives.
28. \_\_\_\_\_ are added to make liquid cosmetics thicker and give them a smooth and creamy feel.
29. \_\_\_\_\_ are added to cosmetics to make them more attractive.
30. \_\_\_\_\_ is the base for all chemicals, lotions, shampoos and perfumes.
31. Explosives are used in \_\_\_\_\_.

1. Scientific
2. Science
3. Reactant
4. Product.
5. Chemicals
6. Alchemy
7. Insects
8. Fungicides
9. Herbicides
10. Salt, Sugar, Vinegars
11. Sodium Benzoate and Sorbic Acid
12. Antioxidants
13. Natural and Synthetic Colors
14. Natural and Synthetic Flavors
15. Cotton
16. Polyester
17. Wool
18. Rayon
19. Synthetic Rubber
20. Dyes
21. Silk
22. Magnesium Hydroxide
23. Reducing pain.
24. Paracetamol, Acetylsalicylic Acid
25. Petrochemicals
26. Petrochemicals
27. TNT, RDX
28. Thickeners
29. Coloring agents and Fragrances
30. Water
31. Defense
